Background

Benjamin Franklin House is a Grade I listed Georgian building, located in the centre of London, just off Trafalgar Square. For nearly sixteen years between 1757 and 1775, Dr Benjamin Franklin – scientist, diplomat, philosopher, inventor and US Founding Father – lived at 36 Craven Street.

Though built as a lodging house, the building was over time used as a hotel and as a base for several non-profit groups. By the late 1980's, when the Friends of Benjamin Franklin House were granted the building's freehold from the British government, the property was in dire condition.

After extensive conservation, museum design and installation, Benjamin Franklin House opened to the public for the first time on Franklin's 300th birthday in January 2006. It is the world's only remaining Franklin residence and is now a dynamic museum and educational centre.

Our primary offering is the Historical Experience which uses the House's historic rooms as the stage for a drama which seamlessly integrates live performance, and cutting-edge lighting and projection technology to present the excitement and uncertainty of Franklin's nearly 16 years in London.
